

LeMay Auto Museum Tour & Visit

Saturday January 29, 2022 at 8:30 AM

Alfa Romeo Owners of Oregon

Hosted by AROO Member Chris Bright

AROO members and guests have an opportunity to visit the year-long Alfa Romeo Exhibition at the LeMay/America's Car Museum in Tacoma!

This outstanding exhibit of Alfa Romeos new and old at LeMay/America's Car Museum opened last month, and will feature local Alfas including Pre and Post War models, as well as US and Italian Home Market cars, including models never imported to North America (Alfasud, 155, 156, 159, 916 spider, etc).

AROO members and guests will be meeting **at the Starbucks at 14300 NE 20th Ave #203, Vancouver, WA 98686** - located between I-5 and I-205 in Salmon Creek area.

We will **depart at 8:30 AM for the drive up to Tacoma**. Guest Curator and NWARC President Fred Russell will meet us at the museum, and give us an informative guided tour of the exhibit, as only Fred can do!

Following the museum tour, the group will head back towards Portland, stopping for a no-host lunch along the way.

Fred recommends purchasing a season pass to the museum, as this exhibit will be changed in November, with another group of unique Alfas for the remaining six months of the exhibition. Every few Saturdays, Fred will be hosting in-person presentations at the museum, discussing various topics regarding Alfa Romeo (F1 racing, GP racing, Airplane and Boat engines, the Alfasud factory, and so on).

Please RSVP to Chris Bright as soon as possible, as he will have more details on the drive to and from the LeMay Museum at chris.bright@alfa.club.org
